PROFILE

Motivated Software Developer with a 9-month professional training in Web and Mobile Application Development under the ISDB-BISEW IT Scholarship Programme. Strong foundation in Java, Spring Boot, Angular, Android, and Flutter with hands-on experience in full-stack and mobile application development. MBA graduate with strong communication, teamwork, and problem-solving skills.

TECHNICAL SKILLS

Programming Languages:

- Java,
- JavaScript,
- SQL

Database:

- Oracle 19c, MySQL, PostgreSQL
- Firebase Realtime Database
- Firestore

Software Design & Modeling:

- Object-Oriented Programming (OOP)
- UML (Use Case, Class, Sequence Diagrams)

Web Technologies:

- HTML5, CSS3
- Bootstrap
- Angular

Tools & Platforms:

- Git, GitHub
- Android Studio, VS Code

Backend & Frameworks:

- Spring, Spring Boot
- Servlet, JSP, JSF, Hibernate
- REST API Development

Mobile Development:

- Android (Java)
- Flutter (Dart)

MY PROJECTS

Project-1: Job Portal / Business Application (Angular + Spring Boot)

- Developed a full-stack web application using Angular for frontend and Spring Boot for backend.
- Designed RESTful APIs for user authentication, job posting, and application management.
- Implemented role-based access control and JWT-based authentication.
- Used MySQL database with JPA/Hibernate for data persistence.
- Applied MVC architecture and clean code principles.

Project-2: Android Chat Application (Firebase)

- Developed a real-time Android chat application using Java and Firebase.
- Implemented user authentication using Firebase Authentication.
- Used Firebase Realtime Database / Firestore for real-time messaging.
- Designed modern UI with RecyclerView and Material Components.
- Implemented message read/unread status and user presence tracking.

Project-3: Flutter Mobile App with Spring Boot Backend

- Developed a cross-platform mobile application using Flutter.
- Integrated the app with Spring Boot REST APIs.
- Implemented secure API communication and JSON-based data exchange.
- Followed MVVM / clean architecture principles.
- Improved app performance and user experience through optimized UI components.

Project-4: Learning Management System (Angular + JSON Server)

- Developed a Learning Management System (LMS) using Angular for frontend functionality.
- Implemented CRUD operations for courses, students, and instructors using JSON Server (db.json) as a mock REST API.
- Used Angular routing, components, services, and reactive forms.
- Implemented role-based UI views for Instructors and learners.
- Designed responsive UI using Bootstrap.

EDUCATIONS

Master of Business Administration (MBA)2025

- Major: Human Resource Management
- Gopalganj Science and Technology University
- CGPA: 3.56 out of 4

Bachelor of Business Administration (BBA)2023

- Major: Management Studies
- Gopalganj Science and Technology University
- CGPA: 3.29 out of 4

HSC2017

- Business Studies
- Dhaka City Collage
- GPA: 4.58out of 5

SSC2015

- Business Studies
- Nalchity Merchant’s High School
- GPA: 4.83 out of 5

PROFESSIONAL TRAININGS

Diploma in Web and Mobile Application Development2025

ISDB-BISEW IT Scholarship Programme
Duration: 9 Months

Professional Outsourcing Training on Digital Marketing2020

Learning and Earning Development project (ICT-Division)
City: Dhaka | Country: Bangladesh | Website: <https://ledp.ictd.gov.bd>

Training on Computer Fundamentals and Office Applications2024

Department of CSE (BSMRSTU)
Digital Government and Economy (EDGE) Project of Bangladesh Computer Council, ICT Division

LANGUAGE PROFICIENCY

Language	Reading	Writing	Speaking
• Bangla	Native	Native	Native
• English	High	High	High
